Smartness, Contemplation, and Slow Research

Article Reviews

- 140 Haythem Bastawy
Review of Caroline Sumpter's "No Artist has
Ethical Sympathies': Oscar Wilde, Aesthetics,
and Moral Evolution."

- 142 Stephanie Codsì
Review of Gregory Tate’s “Keats, Myth, and the
Science of Sympathy.”
- 144 Kimberly Cox
Review of Clare Stainthorp’s “Activity and
Passivity: Class and Gender in the Case of the
Artificial Hand.”
- 146 Andreea Ros
Review Christopher D. Kilgore’s “Bad Networks:
From Virus to Cancer in Post-Cyber-Punk
Narrative.”
- 148 Jesse Zuba
Review of Cassandra Laity’s “Eco-Geologies of
Queer Desire: Elizabeth Bishop’s Love Poetry
and Charles Darwin’s Beagle Geology Travel
Narratives.”

About the JLS

The *Journal of Literature and Science (JLS)* is a peer-reviewed academic journal published twice annually in Summer and Winter. The JLS was founded in 2007, and produced its first issue at the beginning of 2008. It was originally hosted by the University of Glamorgan's Research Centre for Literature, Arts and Science (2007-12), before moving to its own independent online site in March 2013, with the support of the University of Westminster. The journal's first, and present, editor is Professor Martin Willis, Professor of English at Cardiff University. The Advisory Board includes leading scholars of literature and science from around the world. The JLS is published in digital format, is entirely open access, and requires no subscription fee.

The journal is dedicated to the publication of academic essays on the subject of literature and science, broadly defined. Essays on the major forms of literary and artistic endeavour are welcome (the novel, short fiction, poetry, drama, periodical literature, visual art, sculpture, radio, film and television). The journal encourages submissions from all periods of literary and artistic history since the Scientific Revolution; from the Renaissance to the present day. The journal also encourages a broad definition of 'science': encapsulating both the history and philosophy of science and those sciences regarded as either mainstream or marginal within their own, or our, historical moment. However, the journal does not generally publish work on the social sciences. Within these confines, essays submitted to the journal may focus on the literary and scientific productions of any nation or group.

All essays should be interdisciplinary in focus, offering an original view of both the literary or artistic subject matter and the science or sciences under consideration. While essays on individual examples of literary and artistic production are welcomed, these should also seek to show the wider significance of their analyses and interpretations. The journal does not publish essays focused exclusively on literature or art, or exclusively on the history and philosophy of science.

Submission and Citation Information

Abstracts and articles for submission should be sent to the Editor, Professor Martin Willis, by email only: WillisM8@cardiff.ac.uk

The *JLS* recommends that an initial email inquiry, including an abstract of the proposed article, should be sent in advance of completed articles in order to ensure that the subject matter is suitable for publication under the *JLS*'s remit.

All articles should be from 6000-9000 words in length, interdisciplinary in focus, and offering an original view of both the literary or artistic subject matter and the science or sciences under consideration. While articles on individual examples of literary and artistic production are welcomed, these should also seek to show the wider significance of their analyses and interpretations. The journal does not publish essays focused exclusively on literature or art, or exclusively on the history and philosophy of science.

All submitted articles should be presented in MLA Style, with notes kept to a minimum. *JLS* articles do not use personal pronouns (e.g. "In this article I will..." is not appropriate, while "This article will..." is appropriate). All spellings should follow British English. All submitted articles should include a short abstract (150 words maximum) below the title and author's name and ahead of the opening sentence.

The *JLS* aims to complete the first stage of peer review (consideration of articles by the editor and advisory board) within 4 weeks of submission and the second stage of peer review (external, blind, double peer-review) within 8 weeks of the completion of the first stage. All authors whose articles reach the second stage of peer review should expect to have a decision on publication within approximately 12 weeks of the date of their original submission of an article

Citing the JLS: the journal's full title is the *Journal of Literature and Science*, and its first issue was Volume 1, Number 1 (2007). All page numbers to individual essays can be found when accessing the PDF file of that essay. The journal's ISSN is 1754-646X. Citations should give Author, 'Title,' *Journal of Literature and Science* Vol, No. (Year): pp., organized according to the specific style guide being used.

Open Access Statement

The *Journal of Literature and Science* is committed to real and immediate open access for academic work. All of the *JLS*'s articles and reviews are free to access immediately from the date of publication. There are no author charges (commonly known as APCs) prior to publication, and no charge for any reader to download articles and reviews for their own scholarly use. The *JLS* does not, therefore, operate either a Gold or Green model of open access, but is free to all at any time and in perpetuity. To facilitate this the *JLS* depends upon the financial underwriting provided by the University of Westminster's Department of English, the goodwill of its editorial team and advisory board, and the continuing support of its network of peer reviewers.

The *Journal of Literature and Science* also operates under the [Creative Commons Licence CC-BY-NC-ND](https://creativecommons.org/licenses/by-nc-nd/4.0/). This allows for the reproduction of articles, free of charge, for non-commercial use only and with the appropriate citation information. All authors publishing with the *JLS* accept these as the terms of publication. Please note that copyright of the content of all articles and reviews remains with the designated author of the article or review. Copyright of the layout and design of *JLS* articles and reviews remains with the *Journal of Literature and Science* and cannot be used in other publications. The *JLS* is a member of PILA (Publishers International Linking Association) and submits all articles and reviews, including all works that these cite, to CrossRef for cross-referral. To find *JLS* articles and reviews via their DOI numbers, use the URL [http://dx.doi.org/\[DOI number\]](http://dx.doi.org/[DOI number])

Reviews

The *JLS* reviews articles on literature and science, or relevant articles in cognate fields such as the history of science, cultural studies or sociology, published in academic journals within the last twelve to eighteen months. Reviews are generally commissioned by the Reviews Editor, but potential contributors are encouraged to contact the Reviews Editor to suggest articles for review.

The *JLS* does not, at any time, review books or collections of essays. The editors take the view that books within the field are already well covered by reviewing journals while journal articles, often the publication type that offers the most recent scholarship, are never considered in review processes. By doing so, the *JLS* hopes to offer its readers access to academic dialogue on the most recent advances in literature and science.

Reviews should be approximately 750 words in length, should follow MLA Style (notes generally not allowed), and should aim to describe the content of the article under review as well as offer an analysis of its strengths and weaknesses and conclude by assessing its significance for literature and science scholarship.

Proposals for review and completed reviews should be sent to the Reviews Editor, Dr Michelle Geric by email only: m.geric@westminster.ac.uk

Editorial Board

Editor: Martin Willis

Reviews Editor: Michelle Geric

Editorial Assistants: Rebecca Spear & Jim Scown

Advisory Board: Tim Armstrong, Gowan Dawson, Folkert Degenring, John Holmes, Lisa Hopkins, William Hughes, Kelly Hurley, Meegan Kennedy, Leah Knight, Sharon Ruston, Eleanor Sandry, Jonathan Sawday, Carol A. Senf, Andrew Smith, Laurence Talairach-Vielmas, Jeff Wallace, Alexandra Warwick and Catherine Wynne.

Anna Auguscik lectures and researches at the University of Oldenburg and is a member of the Fiction Meets Science research group. She is the author of *Prizing Debate: The Fourth Decade of the Booker Prize and the Contemporary Novel in the UK* (2017), a study of the role of literary prizes for the literary marketplace, and the waves of critical and public reactions.

Haythem Bastawy is a Visiting Lecturer at Leeds Trinity University and a Fellow of the Higher Education Academy. He is currently completing a doctoral thesis in Literature and History at Leeds. He has published articles on various aspects of Literature and History in the Victorian era.

Catherine Belling is Associate Professor of Medical Education, Center for Bioethics and Medical Humanities, Northwestern University Feinberg School of Medicine in Chicago. Her first book, *A Condition of Doubt: The Meanings of Hypochondria* (Oxford, 2012), won the 2013 Kendrick Book Prize (US Society for Literature, Science, and the Arts). She is editor of the journal *Literature and Medicine* (Johns Hopkins UP).

James Castell is a Lecturer in English Literature at Cardiff University. His research focuses on Romantic poetry, the history and philosophy of science, and the environmental humanities. He is finishing a book on Wordsworth and animal life.

David Clifford teaches English at Homerton College, Cambridge, specializing in Victorian and contemporary literature, science and literature, and anthropology and literature. He has published several articles and chapters on Victorian literature and science. He is currently completing a monograph on Victorian ideas about evolution, while researching and writing further on the interaction between the evolution of language and culture and the emergence of technology since Palaeolithic times, and earlier.

Stephanie Codsì has taught 18th century literature at Bristol University and is currently Associate Lecturer in English at Falmouth University. She researches Blake, and received her doctorate in 2015 on the subject of self-annihilation in Blake's poetry. She will be publishing a chapter on Blake and the Gothic with Manchester University Press next year, she has written pedagogical and critical material for BSLS and *Romantic Textualities*, and was the assistant editor of *Doris Lessing and the Forming of History* (EUP, 2016). She also writes poetry, has performed on radio, and will be publishing next year in the *Landsdown Poets' Anthology*.

Dr Daniel Cordle is Associate Professor in English and American Literature at Nottingham Trent University. He is an expert in nuclear culture, particularly that of Britain and the United States, and has also written extensively on the relations between literature and science. He is the author of *Late Cold War Literature and Culture: The Nuclear 1980s* (Palgrave Macmillan, 2017), *States of Suspense: The Nuclear Age, Postmodernism and United States Fiction and Prose* (Manchester University Press, 2008) and *Postmodern Postures: Literature, Science and the Two Cultures Debate* (Ashgate, 1999).

Kimberly Cox is Assistant Professor in the English & Humanities department at Chadron State College. Her article, “A Touch of the Hand: Manual Intercourse in Anne Brontë’s *The Tenant of Wildfell Hall*,” was recently published in *Nineteenth-Century Literature*, and she had two articles published last year: one on manual monstrosity in H.G. Wells’ *The Island of Doctor Moreau* appearing in *Victorian Network* and one on haptic eroticism in *Jane Eyre* appearing in *Victorians: A Journal of Culture and Literature*. Her interest in Victorian hands and haptics led her to organize a panel on the future of Victorian hand studies for MLA 2018. Her current book project explores the relationship between hand-holding, hand-grabbing, and sexual violence in Victorian and eighteenth-century British literature.

Des Fitzgerald is a lecturer in sociology at the School of Social Sciences, Cardiff University; he has broad interests in the sociology of science and medicine, and in science and technology studies, with particular attention to the neurobiological and psychological sciences. He is the author of *Tracing Autism: Uncertainty, Ambiguity and the Affective Labor of Autism Neuroscience* (University of Washington Press, 2017) and, with Felicity Callard, *Rethinking Interdisciplinarity across the Social Sciences and Neurosciences* (Palgrave, 2015). He is currently co-authoring a book about the ‘urban brain.’

Anton Kirchhofer is Professor of English Literature at the University of Oldenburg. He specializes in Anglophone narrative fiction, including the media and the cultural settings and discursive environments of literature. Recent publications include the co-edited *Precarious Alliances: Cultures of Participation in Print and Other Media* (2016). He is one of the founding directors of the Fiction Meets Science research group, where he runs research projects on scientist characters in contemporary fiction, and on the reception of contemporary science novels in literary and ‘scientific’ reviews.

Leah Knight is Associate Professor, English Literature, Brock University, author of *Reading Green in Early Modern England* (2014) and *Of Books and Botany in Early Modern England* (2009), and co-editor (with Elizabeth Sauer and Micheline White) of *Women’s Bookscapes in Early Modern Britain* (forthcoming, University of Michigan Press).

Alison Mark is an independent scholar with a PhD in Materials Engineering who has held research appointments at academic institutions in Canada, the UK and Germany. She has published over 30 journal and conference papers in the areas of materials characterization and performance, with a focus on materials for sustainability.

Robert Mitchell is the Marcello Lotti Professor of English and Director of the Center for Interdisciplinary Studies in Science and Cultural Theory at Duke University. He is author of *Sympathy and the State in the Romantic Era: Systems, State Finance, and the Shadows of Futurity* (2006), *Tissue Economies: Blood, Organs and Cell Lines in Late Capitalism*, co-authored with Catherine Waldby (2006), *Bioart and the Vitality of Media* (2010), and *Experimental Life: Vitalism in Romantic Science and Literature* (2013). His current research focuses on relationships among biopolitics, the logic of populations, and the arts.

Chris Otter teaches, researches, and writes on the history of technology, cities, environment, health and food at the Ohio State University. He is the author of *The Victorian Eye: A Political History of Light and Vision in Britain, 1800-1910* (Chicago, 2008) and recently completed a book on food systems and the making of industrial Britain.

Janine Rogers is the Purvis Chair of English Literature and the Professor of Medieval and Sixteenth-Century Literature at Mount Allison University, New Brunswick, Canada. She is the author of *Eagle* (Reaktion Press, 2015) and *Unified Fields: Science and Literary Form* (McGill-Queen's University Press, 2014). Her current research is on the intellectual heritage of medieval manuscript culture in the history of science museums and natural history museums, and on text-instrument relations in the history and literature of science of the medieval and early modern period.

Andreea Ros is a PhD student at Manchester Metropolitan University researching depictions of contagion in early Victorian and contemporary Gothic texts. Her thesis examines how popular depictions of contagion as Gothic trope reflect, reshape and reinforce public attitudes towards health promotion and disease prevention.

Charlotte Sleigh is Professor of Science Humanities at the University of Kent. Originally trained in history of science, her work takes in literary, artistic and communicational dimensions of science. She is the author of numerous books and current editor of *British Journal for the History of Science*.

Bradon Smith is a Senior Research Associate at the University of Bristol. He was a Research Associate at the Open University on the AHRC-funded project *Stories of Change: Exploring energy and community in the past, present and future* (2014-2017), and at the University of Bath on *Building capacity for energy resilience in deprived areas*. He is co-editing, with Prof Axel Goodbody, a special issue of *Resilience on Stories of Energy* (forthcoming, Sept 2018). He is working on a monograph, *The Energy of Imagined Futures*.

Laurence Talairach is Professor of English at the University of Toulouse Jean Jaurès, and associate researcher at the Alexandre Koyré Centre for the History of Science and Technology (UMR 8560). Her research specializes on the interrelations between Victorian literature, medicine and science. She is the author of *Fairy Tales, Natural History and Victorian Culture* (Palgrave Macmillan, 2014), *Wilkie Collins, Medicine and the Gothic* (The University of Wales Press, 2009) and *Moulding the Female Body in Victorian Fairy Tales and Sensation Novels* (Ashgate, 2007). Her latest project is a series of scientific novels for children aged 8–12, published by Plume de Carotte, which deal with natural historical knowledge and take place in museums of natural history.

Keir Waddington is Professor of History at Cardiff University. With research interests in the social history of medicine and rural history, he is editor of the Society for the Social History of Medicine's monograph series and on the executive committee of the Society. He is the co-author of *The History of Bethlem* (1997), and author of *Charity and the London Hospitals* (2000), *Medical Education at St Bartholomew's Hospital* (2003), *The Bovine Scourge: Meat, Tuberculosis and Public*

Health 1850-1914 and *An Introduction to the Social History of Medicine: Europe since 1500* (2011). His current research explores two strands: health and pollution in the Victorian and Edwardian rural environment, and the ScienceHumanities.

Martin Willis is Professor of English at Cardiff University, Editor of the *Journal of Literature and Science* and Chair of the British Society for Literature and Science (2015-18). He is the recent editor of *Staging Science* (Palgrave 2016), and author of *Literature and Science* (Palgrave 2015). His *Vision, Science and Literature, 1870-1920* (Pickering and Chatto 2011) won both the BSLS Book Prize and the ESSE Cultural Studies Book Prize in 2012. His present research is focussed on the historic and contemporary relationships between the sciences and the humanities and at Cardiff he leads the ScienceHumanities research initiative.

Jesse Zuba is Associate Professor of English at Delaware State University. His articles have appeared in *Twentieth-Century Literature* and *American Literature*, and he is the author of *The First Book: Twentieth-Century Poetic Careers in America* (2016). Works in progress include essays on reading Raymond Carver during the Age of Trump and the relevance of lyric to cultural criminology.
